Moreno:  
a man of his time;  
a man for our times

*"Love and mutual sharing are powerful, indispensable working principles in group life." - J.L. Moreno*

*"Moreno picked up where Freud left off, with his theory of interpersonal relations, and the development of his work in psychodrama, sociometry, group psychotherapy, sociodrama, and sociatry." - Zerka Moreno*

*"The realization of fulfillment of creativity in humankind takes many forms. Among them are two outstanding categories of the creator: (1) the devotee of the truly perfect; and (2) the devotee of the truly imperfect, the lover of spontaneity." - J.L. Moreno*

*"Jacob Levy Moreno: He lived in the moment, far ahead of his time; He gave us a splendid future which we, and others, are all still discovering." - Ann E.. Hale*

*"A meeting of two: eye to eye, face to face." - J.L. Moreno*

*"The spatial-proximity hypothesis postulates that the nearer two individuals are to each other in space, the more do they owe to each other their immediate attention and acceptance, their first love." - J.L. Moreno*
